Invitation – Webinar

The importance of mobile networks to Tasmania

The importance of mobile networks to Tasmania
An update on 5G

Date: Tuesday 29 September 2020
2.00pm – 2.30pm

Representatives from the Australian Mobile Telecommunications Association (AMTA), the peak industry body representing Australia's mobile telecommunications industry will be conducting an online presentation on the latest information on the 5G network.

The presentation will also include an opportunity for a question and answer session.

Who should attend?

This webinar is aimed at General Managers and other interested Local Government managers that would like to be updated on important changes to the 5G network.

LGAT Local Government Association Tasmania

AMTA

Webinar Program

The focus of the presentation will be on:

- The importance of mobile networks to Tasmania
- What is 5G and how it connects communities
- The 5G use case, economic impact and supported services
- Health & Safety of mobile networks including 5G
- The evolution to 5G and "small cells"
- How the Industry is working with Councils and communities to deliver 5G and Smart Cities/Regions.

In addition, the AMTA will also cover topics relating to the deployment of 4G and emerging 5G network infrastructure, including the planning challenges and community consultation. AMTA representatives are well placed to discuss these issues, as AMTA has an infrastructure division called the Mobile Carriers Forum (MCF) whose members include the licensed carriers currently deploying mobile networks in

Presenters

The following experts from AMTA will be presenting

- Chris Althaus, Chief Executive Officer, AMTA
- Ray McKenzie, Program Manager, Mobile Carriers Forum, AMTA
- Matt Evans, Consultant, Mobile Carriers Forum, AMTA

Chris Althaus

Chief Executive Officer
Australian Mobile Telecommunications Association

Mr Althaus was appointed as Chief Executive Officer of the Australian Mobile Telecommunications Association (AMTA) in 2005.

AMTA is the peak industry organisation representing Australia's mobile telecommunications sector and operates programs covering all aspects of the mobile ecosystem such as: telecommunications policy, mobile network infrastructure, radiofrequency spectrum, health & safety, product stewardship / e-waste and recycling, national security, content regulation and consumer awareness & education.

Prior to joining AMTA Mr Althaus held Chief Executive roles leading national industry associations representing the Australian road transport and logistics industry and the Australian forests and forest products sector.

Mr Althaus has a Bachelor of Science from the Australian National University; Graduate Diploma in Economics from the University of Canberra; and Business Administration Diploma from Georgetown University, Washington, DC.
